GAMBARAN PERILAKU PATUH PROTOKOL KESEHATAN MAHASISWA ANGGOTA UNIT KEGIATAN MAHASISWA (UKM) UNIVERSITAS JENDERAL SOEDIRMAN PASCAVAKSINASI COVID-19

Nur Oktafiani¹, Annas Sumeru², Akhyarul Anam³

Latar Belakang: Penularan Covid-19 terus terjadi hingga saat ini, segala upaya strategis dan kebijakan terus dilakukan pemerintah untuk mencegah penyebaran Covid-19. Salah satu strategi penting yang dilakukan pemerintah saat ini adalah melaksanakan vaksinasi massal terhadap Covid-19. Seseorang yang telah divaksin Covid-19 masih memiliki risiko dapat menginfeksi dan terinfeksi Covid-19 jika tidak menerapkan protokol kesehatan dengan benar. Penelitian ini sudah banyak dilakukan, namun penelitian pada mahasiswa anggota UKM belum pernah dilakukan. Oleh karena itu, peneliti tertarik melakukan penelitian tentang gambaran perilaku patuh protokol kesehatan mahasiswa anggota Unit Kegiatan Mahasiswa (UKM) Universitas Jenderal Soedirman pascavaksinasi Covid-19.

Metodologi: Penelitian deskriptif kuantitatif ini menggunakan rancangan *cross sectional*. Total sampel sebanyak 314 mahasiswa anggota UKM yang diambil dengan metode *simple random sampling* yang dan pengambilan data penelitian ini menggunakan kuesioner melalui *Google form*. Hasil analisis disajikan dalam bentuk tabel distribusi frekuensi dan persentase.

Hasil: Perilaku patuh protokol kesehatan mahasiswa anggota Unit Kegiatan Mahasiswa (UKM) Universitas Jenderal Soedirman pascavaksinasi Covid-19 termasuk dalam tingkat kepatuhan yang cukup dengan persentase 50,6%. Perilaku patuh protokol kesehatan pascavaksinasi Covid-19 berdasarkan karakteristik responden yang memiliki tingkat perilaku baik yaitu pada usia 21 tahun (33,1%), berjenis kelamin perempuan (79,7%), dari angkatan 2020 (34,5%), berasal dari FIKES (23%), anggota UKM KSR PMI (14,2%), dan telah divaksinasi Covid-19 dosis 2 (97,3%).

Kesimpulan: Sebagian besar mahasiswa anggota UKM Universitas Jenderal Soedirman memiliki perilaku patuh protokol kesehatan pascavaksinasi Covid-19 yang cukup

Kata kunci: Kepatuhan, Protokol Kesehatan, Vaksinasi Covid-19, Covid-19

Abstract

GAMBARAN PERILAKU PATUH PROTOKOL KESEHATAN MAHASISWA ANGGOTA UNIT KEGIATAN MAHASISWA (UKM) UNIVERSITAS JENDERAL SOEDIRMAN PASCA VAKSINASI COVID-19

Nur Oktafiani¹, Annas Sumeru², Akhyarul Anam³

Background: The transmission of Covid-19 continues to this day, all strategic and policy efforts are carried out by the government to prevent the spread of Covid-19. One of the important strategies currently being carried out by the government is to carry out mass vaccination against Covid-19. A person who has been vaccinated against Covid-19 still has a risk of being able to infect and be infected with Covid-19 if they do not apply health protocols properly. This research has been done a lot, but research on student members of UKM has never been done. Therefore, researchers are interested in conducting research on the description of the behavior of complying with the health protocols of students who are members of the Jenderal Soedirman University student activity unit after the Covid-19 vaccination.

Method: This quantitative descriptive study used a cross-sectional design. A total sample of 314 UKM member students was taken using a simple random sampling method and data collection for this study used a questionnaire via a Google form. The results of the analysis are presented in the form of frequency distribution tables and percentages.

Results: The behavior of obeying the health protocols of students who are members of the Jenderal Soedirman University student activity unit after the Covid-19 vaccination is included in the level of compliance with a sufficient percentage of 50.6%. The behavior of complying with the health protocol after the Covid-19 vaccination is based on the characteristics of respondents who have a good level of behavior, namely at the age of 21 years (33.1%), female (79.7%), from the 2020 class (34.5%), coming from FIKES (23%), members of UKM KSR PMI (14.2%), and has been vaccinated against Covid-19 dose 2 (97.3%).

Conclusion: Most of the student members of the UKM members of Jenderal Soedirman University have sufficient behavior to comply with the post-Covid-19 health protocol.
