

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

This chapter presents the conclusion and suggestion based on the research finding and discussion in the previous chapter. This chapter divided into two sections. Those are conclusion and suggestion.

5.1 CONCLUSION

Based on the research finding and discussion, the researcher concludes the research on this section. The conclusion represents in the following:

1. The process of using picture series in teaching writing degrees of comparison was successfully used by the teacher and the students. The teacher succeeded in using picture series to teach writing degrees of comparison, the teacher showed picture series and engaging students in the teaching and learning activity, and then asking the students to discuss and do a group work using picture series as the media.
2. The researcher found the problem that the students encountered during the learning process, that is vocabulary. Vocabulary is very essential either for writing, speaking, reading or listening. Vocabulary can make your writing more powerful and more effective and help you say exactly what you mean.
3. Based on the result of the questionnaire the students' responses toward the implementation of picture series in teaching degrees of comparison were positive. Based on the result of questionnaire, most of them stated that picture

series help them to understand the material better and help them in writing degrees of comparison. The students stated that learning process by using picture series as media is both fun and interesting and it also help the students understand the material better. TAlso the students stated that their vocabulary increased after using picture series as a learning media.

5.2 SUGGESTION

After making the conclusions of the research, there are some suggestions for the English teacher, the students, and the next researchers on this subject that could be proposed. Those suggestions are presented as follows:

1. For the English teacher
 - a. The English teacher should prepare a media that is relevant to the topic that will be discussed.
 - b. It would be better if the teachers use the new media for teaching writing degrees of comparison. One of them is using *picture series*.
 - c. In the process of teaching and learning, the teacher should create English atmosphere. He or she should communicate with the students by using English. Therefore, they can experience by themselves about the real English class.
2. For the students
 - a. Students must be more aware that each time learning English, they must bring a dictionary to support the learning process.

- b. Students should practice more writing. They are recommended practicing writing not only after getting tasks from the teacher at school but also from their initiative to practice writing at home.
 - c. Learning in class, students must have high motivation to learn and receive information from the teacher well.
3. For the other researchers
- a. Other researchers could use this study as a reference for conducting further research on the relevant topics.
 - b. Picture series is especially fitted for teaching genre text like narrative text, descriptive text, procedure text, or recount text.
