

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

This chapter contains two sections. The first section is conclusions in which the research analysis is summarized and concluded. The second section is suggestions in which particular matters are suggested to other researchers.

5.1 Conclusions

Related in the formulation of problems in Chapter I, the findings and discussions in Chapter IV, and the sociolinguistic approach employed in this study, some conclusions can be drawn as follows:

1. Different types of swearing are employed in the way the characters swear in Deadpool Kills the Marvel Universe comic. The types of swearing which are found in the movie can be classified into four. They are Expletive Swearing (ES), Abusive Swearing (ABS), Humorous Swearing (HS), and Auxiliary Swearing (AUS). From the findings of the types of swearing, it can be revealed that Humorous swearing is the preferred type of swearing employed by Deadpool in the Deadpool Kills the Marvel Universe.
2. The reasons for the characters of Deadpool Kills the Marvel Universe comic to swear exist as the parameters to analyze and measure the motives behind the swearing expressions. They are classified into three groups including Psychological Motives (PM), Social Motives (SM), and Linguistic Motives (LM). The findings of this study show that linguistic motives are the most influential reasons for emphasizing the thing he is talking about.

On the other hand, the characters of Deadpool Kills the Marvel Universe have been accustomed to use swearing expressions in their daily conversation. Thus, swearing has become his way of speaking. It causes them to swear all the time, swearing has

become their way of speaking. It causes them to swear all the time, even when the swearing expressions are not directed to others.

5.2 Suggestions

From the result of the research, some suggestions are provided as follows:

1. Linguistics students are expected to understand that analysis on linguistics is not only about linguistic features. Thus, they have to study language aspects deeper. It is expected that this research can be used as a reference for linguistics students to add their knowledge dealing with language phenomena which emerges in society.
2. This research only focuses on analyzing swearing expressions uttered by the characters of Deadpool Kills the Marvel Universe comic. I expect that reader can understand the types and motives of swearing.
3. The future researcher can pick more specifics swearing words, instead of using types and motives in analysing comic.
4. The future researcher can chose other superheroes comic that has more of swearing words rather than this comic.
