

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

#### **5.1 Conclusion**

Based on job training that the author had finished, it can be inferred that before making a virtual tour video about English promotion, you need to prepare some matters. First, to know about the material to be uploaded, prepare the photo or video to be uploaded in good quality with right angle, good color composition, and actual. Second, the author must be selective to make a caption, to choose the word, and the sentence so it did not seem awkward or weird. The author hopes that the English promotion can let the international tourist know if Baturraden has Palawi Risorsis, and it could be more popular among the other tourist attractions in Baturraden. In carrying out the job training the author got new experience, and a lot of knowledge, made a lot of new relations, knew about working life and also used all the study that had been done in the college and improved more knowledge in tourism and promotion Palawi Risorsis Baturraden.

#### **5.2 Suggestion**

The author suggestion that as a tourism destination, Palawi Risorsis in Baturraden have to improve the english in order to promote for international tourists. As one of the well-known tourist destinations, the use of English will attract international tourists to visit Palawi Risorsis. By using English text, international tourists can understand from the promotional information that they are looking in social media such as Instagram or YouTube.
