**CHAPTER V**

**CONCLUSIONS AND SUGGESTIONS**

The final chapter gives the results of all the analysis, including the topics covered in the preceding chapter. There are two sub-chapters in this part. The first sub-chapter are the conclusions of the types and functions of slang words on traveling Instagram accounts @*indigo.traveller,* @*natgeotravel,* and @*visitnorwich*. Then, the second sub-chapter is the suggestions for the reader and other researchers.

**5.1 Conclusions**

The researcher draws some points based on the result of the discussion in this research. The researcher presents the conclusion as follows:

1. The researcher finds that there are 27 slang words, which were found in the traveling Instagram accounts @*indigo.traveller,* @*natgeotravel,* and @*visitnorwich* which (44,4%) of data belong for *fresh and creative*, (11,2%) for *imitative*, (29,6%) for *acronym*, and (14,8%) for *clipping*. The mostly used type of slang words found in the comments of travelling Instagram account @*indigo.traveller,* @*natgeotravel,* and @*visitnor* is *fresh and creative*. This is because in informal conversation, especially in the traveling Instagram account, people prefer non-standard English. Therefore, using simple words will be more productive in casual conversation. The use of simple words makes the atmosphere more fluid.

2. The researcher also finds five functions of slang word, which found in traveling Instagram account @*indigo.traveller,* @*natgeotravel,* and @*visitnor.* They are *to address* (25,9%), *to humiliate* (3,7%), *to initiate relax conversation* (48,1%), *to express impression* (14,8%), and *to reveal anger* (7,4%). The large number functions of slang words found in traveling Instagram account @*indigo.traveller,* @*natgeotravel,* and @*visitnorwhich* is to *initiate relax conversation* shown by 48,1% data. The function of using slang words in the conversation is essential, which is that people will use different language in different situations. In the context of informal conversation, slang words will find more often because using slang words in conversation makes the situation more relaxed.

3. The conclusion is the correlation between the types and functions of slang words focuses on the words pattern or structure of words formation. The types of slang more focuses on grammatical patterns, while the functions of slang words focus on the variety of language use according to their functions.

**5.2 Suggestions**

1. The researcher suggests that other researchers who are interested in conducting additional research on slang words will be able to investigate other phenomena as the object aside from traveling Instagram accounts, such as in academic, political, economic, medical, communication, or other fields to broaden the study's focus on slang words.

2. The researcher also expects that other researcher who are interested in carrying out another research on slang word would concentrate in other fields like semantics because the meaning of slang frequently changes throughout time. Hence, the researcher suggests that it may be able to investigate how slang's semantics have changed. In addition, the researcher hopes that this study will serve as a beneficial resource for students in the English Department at Jendral Soedirman University who wish to conduct similar research in the future, particularly with regard to slang language.
