

## CHAPTER V

### CONCLUSION AND SUGGESTINGS

This chapter presents the conclusions and suggestions based on the research findings and discussion in the previous chapter. This chapter is divided into two sections: conclusions and suggestions.

#### 5.1 Conclusions

Based on the research finding and discussion, the researcher concludes the research in this section. The conclusion represents as follows:

1. Teaching Media used by the Teacher in conclusion, there are some Media that teacher use in teaching English at SMA Negeri 3 Cirebon there are Electronic Media and Social Media such as laptop, handphone, whatsapp and msteam. The main media that the teacher use in class was Laptop. Based on the research observation the media 90% used by the teacher in teaching in English class at SMA Negeri 3 Cirebon. This statement is supported by Indah Permata as one of the students in the classroom who declares that, “ *The media used by our teachers are laptops and cell phones using Whatsapp and MsTeam.*” . She also states that she was happy when her teacher uses the digital media during classroom learning, “ *Yes, I am happy if the teacher uses the media. Because with this media, learning English becomes more interesting and interactive.*”
2. Students’ perceptions Students’ perceptions towards the media that used by the teacher in 10<sup>th</sup> grade at SMA Negeri 3 Cirebon was very positive, 80% of the students were vey happy with this kind of new Learning Process and 20% happy with this learning style. According to Istifci and UCAR, (2021) Digital media has revolutionized the process of learning, especially when it comes to language acquisition. Researcher found that The use of digital media in the 10<sup>th</sup> graders of SMA Negeri 3 Cirebon has been proven to be highly effective

in facilitating their students' the media enhancing the students' English language learning experience. Even though it was the first time for the student to learn towards Electronic Media and Online Media (Social Media) but, they fully support this innovation learning and teaching process. Last, 95% of the students agreed that this program was done as expected. therefore all aspects of perception were positive.

3. Teacher implementing the media of teaching English by using laptop to access the whatsapp and the msteam. Teachers use whatsapp to do the exercise with the students and discuss about teaching materials together. Students' 75% of learning activities in class using laptop and Handphone, the students' almost never use book in the learning process.

## 5.2 Suggestion

5.2.1 The suggestions for conducting the research are as follows:

1. Suggestions for Teacher
  - a. English Teacher as an educators need to pay attention to the preparation in order to set as much as strategies for this teaching method.
  - b. It could be nice for the teacher to facilitated the students wich is better electronic media & tools for support learning and teaching process.
2. Suggestion for the Students

In addition the researcher proposes some suggestion to the students, as this learning style is new the students should learn how to operated the mdia used by the teacher in order to learning English. students should keep practicing how to do the exercise towards Msteam.

### 3. Suggestions for the other Researcher

Researchers who want to conduct similar studies related to the Media used by the Teacher in Learning English should read many books or references in order to obtain lots of information. Other researchers may study further in the implementation of using media in learning English.
