## **ABSTRACT**

*Chinese Dream is a doctrine initiated by Xi Jinping as China's new leader since 2013. The Chinese Dream that emphasizes "the great rejuvenation of the Chinese nation" is not purely derived from Xi Jinping, but also a manifestation of the dreams of previous leaders. Through the Chinese Dream, Xi Jinping believes that China is ready to give new contribution with the international community for the noble cause of peace and development for the people by promoting lasting peace, common prosperity and a harmonious world. The birth of One Belt One Road (OBOR) initiation is also influenced by Chinese Dream, which prioritizes infrastructure development through elements of Silk Road Economic Belt and 21st Century Maritime Silk Road. Through OBOR, the dreams of Chinese people and government in the Chinese Dream can be realized.*
