

RINGKASAN

Penelitian ini dilaksanakan di Desa Pliken, Kecamatan Kembaran, Kabupaten Banyumas. Tujuan penelitian ini adalah mengetahui efektivitas dan dampak dari pemberian bantuan langsung tunai dana desa dan pembangunan jalan usaha tani terhadap perekonomian dan kesejahteraan masyarakat. Penelitian ini menggunakan pendekatan kualitatif dengan metode analisis deskriptif. Teknik pengumpulan data dengan cara wawancara mendalam, studi observasi dan dokumentasi.

Berdasarkan hasil penelitian menunjukkan bahwa:

1. Efektivitas bantuan langsung tunai dana desa di Desa Pliken dari aspek ketepatan waktu telah tepat waktu, dari aspek ketepatan sasaran telah tepat sasaran dan dari aspek pencapaian tujuan telah tercapai tujuannya.
2. Efektivitas pembangunan jalan usaha tani di Desa Pliken ditinjau dari aspek ketepatan waktu belum tepat waktu, aspek ketepatan sasaran telah tepat sasaran dan dari aspek pencapaian tujuan telah tercapai tujuannya.
3. Dampak pembangunan jalan usaha tani di Desa Pliken terhadap perekonomian masyarakat dan kesejahteraan masyarakat yakni dapat mengurangi biaya hasil panennya sehingga pendapatan yang diperoleh petani meningkat.
4. Dampak bantuan langsung tunai dana desa terhadap perekonomian masyarakat dan kesejahteraan masyarakat yaitu membantu masyarakat miskin dalam pemenuhan kebutuhan sehari-hari selama masa pandemi *covid-19*.

Berdasarkan hasil penelitian diatas, pemerintah desa harus senantiasa mengendalikan dan mengawasi kegiatan pembangunan maupun kegiatan yang lain sehingga hasilnya dapat sesuai dengan rencana yang telah dibuat sebelumnya. Masyarakat khususnya petani menggunakan jalan usaha tani dengan sebaik-baiknya untuk kemaslahatan bersama dan bagi penerima bantuan langsung tunai dana desa hendaknya menggunakan bantuan tersebut sesuai dengan keperluan sehari-hari sehingga dana bantuan tersebut dapat membantu perekonomian khususnya masyarakat penerima bantuan dana desa.

SUMMARY

This research was conducted in Pliken Village, Kembaran District, Banyumas Regency. This study aims to determine the effectiveness and impact of direct cash assistance for village funds and the construction of farm business roads on the economy and community welfare. This research uses a qualitative approach with a descriptive analysis method. Data collection techniques using in-depth interviews, observational studies, and documentation.

Based on the results of the study showed that:

1. The effectiveness of direct cash assistance for village funds in Pliken Village from the aspect of punctuality has been timely, from the part of the accuracy of the target has been right on target, and from the aspect of achieving the goal has been completed.
2. The effectiveness of the construction of farm business roads in Pliken Village in terms of punctuality has not been timely. The aspect of target accuracy has been right on target, and the part of achieving the goal has been completed.
3. The impact of the construction of a farm business road in Pliken Village on the community's economy and the welfare of the community is that it can reduce the cost of their crops so that the income earned by farmers increases.
4. The impact of direct cash assistance for village funds on the community's economy and welfare is to help the poor meet their daily needs during the covid-19 pandemic.

Based on the research results above, the village government must always control and supervise development activities and other activities so that the results can follow the plans that have been made before. The community, especially farmers, uses the farming business road as well as possible for mutual benefit, and recipients of direct cash assistance for village funds should use the aid for daily needs so that the assistance funds can help the economy, especially the communities receiving village fund assistance.
