

ABSTRAK

Limbah sampah di Indonesia menjadi permasalahan krusial yang terus memburuk seiring berjalannya waktu. Kabupaten Banyumas menjadi salah satu wilayah yang menyumbang limbah sampah cukup tinggi di Indonesia, untuk menghadapi tantangan tersebut Kabupaten Banyumas mendirikan Tempat Pembuangan Akhir berbasis lingkungan dan edukasi atau TPA BLE Banyumas di Wlahar Wetan, Kecamatan Kalibagor, Kabupaten Banyumas. Melalui sistem pengelolaan sampah yang sistematis dan terintegrasi, TPA BLE Banyumas melakukan inovasi pengelolaan sampah “Sumpah Beruang,” hingga berhasil mengubah limbah sampah menjadi beragam produk bernilai jual seperti pakan maggot, RDF, hingga paving block. Penciptaan karya ini bertujuan untuk memperkenalkan proses pengelolaan sampah tersebut melalui pembuatan film dokumenter “Metamorfosis Sampah : Sumpah Beruang” dengan durasi 19 menit 14 detik. Film dokumenter ini menceritakan alur pemrosesan sampah dari hulu ke hilir yang disampaikan oleh narasumber dari pihak terkait dan ditunjang dengan narasi voice over oleh pencipta karya.

Kata kunci : Pengelolaan sampah, sumpah beruang, zero waste, TPA BLE Banyumas, film dokumenter.

ABSTRACT

Waste management in Indonesia has emerged as a critical issue that continues to worsen over time. Banyumas District has become one of the regions contributing a significant amount of waste in Indonesia. In response to this challenge, Banyumas District established an environmentally and educationally based final disposal site known as the TPA BLE Banyumas in Wlahar Wetan, Kalibagor, Banyumas. Utilizing a systematic and integrated waste management system, TPA BLE Banyumas implemented an innovative waste management approach called "Sumpah Beruang," effectively converting waste into various marketable products such as maggot feed, RDF, and paving blocks. This project aims to introduce waste management processes through the production of the documentary "Metamorfosis Sampah: Sumpah Beruang," with a duration of 19 minutes and 14 seconds. The documentary illustrates the waste processing journey from start to finish, featuring insights from relevant stakeholders and complemented by a narrative voiceover provided by the creators.
