RINGKASAN

Laporan praktek kerja ini berjudul “Organizing Pro 2 Program for English Corner at RRI Purwokerto”, kegiatan praktik kerja ini dilaksanakan pada 15 Agustus – 15 November 2023 di RRI Purwokerto. Praktek kerja ini bertujuan untuk meningkatkan kemampuan berbahasa Inggris pendengar melalui program yang terstruktur dan interaktif. Program ini ditujukan untuk memberikan pengalaman belajar yang menyenangkan dan efektif, sehingga pendengar dapat meningkatkan kemampuan berbicara, mendengar, membaca, dan menulis dalam bahasa Inggris.

Saya melakukan observasi terhadap siaran English Corner terkait dengan persiapan dan pelaksanaan acara. Hasil kerja berupa flyer acara diunggah di Instagram dan rekaman siaran saat itu diunggah di RRI Digital. Terdapat beberapa kendala yang ditemui dalam persiapan dan saat proses pelaksanaan acara, seperti pembuatan flyer yang identik dengan flyer aslinya dan beberapa fasilitas yang kurang memadai. Namun, kendala tersebut sudah diatasi dengan beberapa cara seperti mencari alternatif editing untuk menyelaraskan flyer dengan versi aslinya, dan menggunakan fasilitas hanya saat diperlukan.

SUMMARY

This job training report is entitled “Organizing Pro 2 Program for English Corner at RRI Purwokerto”, and it is written based on a this job training activity that was carried out on August 15 - November 15, 2023 at RRI Purwokerto. This job training aims to improve the English language skills of listeners through structured and interactive programs. This program is intended to provide a fun and effective learning experience, so that listeners can improve their speaking, listening, reading, and writing skills in English.

The results of the work in the form of event flyers were uploaded on Instagram and broadcast recordings at that time were uploaded at RRI Digital. There were several obstacles encountered in the preparation and during the event implementation process, such as making flyers that were identical to the original flyers and some inadequate facilities. However, these obstacles have been overcome in several ways such as finding alternative editing to harmonize the flyer with the original version, and using facilities only when needed.
