

ABSTRAK

HUBUNGAN ANTARA SELF EFFICACY DAN DUKUNGAN SOSIAL DENGAN QUARTER LIFE CRISIS PADA MAHASISWA KEPERAWATAN UNIVERSITAS JENDERAL SOEDIRMAN

Nur Adinda¹, Wahyudi Mulyaningrat², Reza Fajar Amalia³

Latar Belakang: Mahasiswa keperawatan merupakan *agen of change* yang memiliki peran penting dalam regenerasi perawat. Transisi remaja menuju dewasa yang ada pada mahasiswa biasa dikenal dengan *emerging adulthood*, banyak tuntutan yang dihadapai sehingga terjadi stres dan peristiwa *quarter life crisis* selama menjalani masa studi. Masalah psikologis berhubungan dengan perolehan dukungan sosial dan *self efficacy* dalam membangun kesejahteraan diri. Penelitian ini bertujuan untuk mengidentifikasi hubungan antara *self efficacy* dan dukungan sosial dengan *quarter life crisis* pada mahasiswa keperawatan.

Metodologi: Penelitian ini menggunakan desain korelasional kuantitatif dengan jumlah partisipan sebanyak 247 menggunakan teknik *Proportionate Stratified Random Sampling*. Data diperoleh melalui pengisian kuesioner *General Self Efficacy Scale* (GSE), *MOS Social Support Survey* (MSSS), *The Development of Quarter Life Crisis Scale*. Analisis data menggunakan analisis univariat dan bivariat.

Hasil Penelitian: Mayoritas partisipan berusia 18 tahun, berjenis kelamin perempuan dan terbanyak berasal dari angkatan 2024. Terdapat hubungan yang signifikan, *self efficacy* dengan *quarter life crisis* menghasilkan *p-value* 0,0001, *r* -0,359 dan dukungan sosial dengan *quarter life crisis* menghasilkan *p-value* 0,0001 dan *r* -0,240. Mayoritas partisipan memiliki *self efficacy* tinggi dengan *quarter life crisis* sedang sebanyak 100 mahasiswa (40,5%) dan sebagian besar partisipan memiliki dukungan sosial tinggi dengan *quarter life crisis* sedang sebanyak 99 mahasiswa (40,1%).

Kesimpulan: Hubungan dari *self efficacy*, dukungan sosial dan *quarter life crisis* menunjukkan adanya hubungan yang signifikan. Mahasiswa keperawatan diupayakan mampu mempertahankan *self efficacy* dan dukungan sosial pada tingkat tinggi supaya dapat menekan tingkat *quarter life crisis* yang dialaminya.

Kata kunci: Dukungan sosial, mahasiswa keperawatan, *quarter life crisis*, *self efficacy*
