AN ANALYSIS OF PATRIOTISM CHARACTER IN STUDENTS PARTICIPATING IN THE PENCAK SILAT EXTRACURRICULAR ACTIVITY AT SENIOR HIGH SCHOOL 1 BOBOTSARI

Anang Kusuma, Kusnandar, Dewi Anggraeni

Background: The development of patriotic character has been implemented by schools, including through extracurricular activities. However, there has been no research result that explains the level of patriotism among students participating in pencak silat extracurricular activities.

Methodology: This study used a quantitative descriptive method and was conducted at SMA Negeri 1 Bobotsari. The sample consisted of 20 students selected using a total sampling technique. Data analysis was carried out by describing the findings based on the collected data.

Research Results: The overall patriotic character of SMA Negeri 1 Bobotsari students participating in pencak silat extracurricular activities is categorized as very good. The indicator of protecting the land, yard, and all territories of Indonesia scored an index of 89.25%; pride in being an Indonesian scored 94.25%; maintaining the good name of the nation and state scored 92.75%; contributing to the development of the nation scored 87%; and loving domestic products, culture, and arts scored 86.75%.

Conclusion: The patriotic character of SMA Negeri 1 Bobotsari students participating in pencak silat extracurricular activities falls into the "very good" category, with an overall percentage of 90%.
