

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

In this chapter, the researcher presents the conclusion of the research based on the finding and the discussion on chapter IV. The researcher also gives some suggestions for other researchers.

5.1 CONCLUSIONS

Based on the analysis that has been conducted, the researcher draws some conclusions as follow:

5.1.1 The cause of Katherine Preston's stuttering in relevance with the theory of psycholinguistics disorder is the stress condition. There are three causes of being stressed. They are the nervousness, sadness, and disappointment.

5.1.2 The characteristic of stuttering utterances produced by Katherine Preston is disfluency. It is done by prolongation, repetition, and filled pauses.

5.2 SUGGESTIONS

After drawing the research conclusions, there are some suggestions for the other researchers, especially for the researchers in Jenderal Soedirman University.

5.2.1 For the students who want to conduct the study with the same topic, it will be great to choose the movie as the object of the research.

5.2.2 For the students who want to analyze Katherine Preston's speech, it will be great to apply the other linguistic theories.
