

RINGKASAN

Penelitian ini berjudul “Pengaruh Kepemimpinan Kepala Desa dan Kinerja Pemerintah Desa terhadap Pelaksanaan Otonomi Desa di Kota Banjar”.

Tujuan dari penelitian ini adalah untuk mengetahui adakah pengaruh yang signifikan antara kepemimpinan kepala desa dan kinerja pemerintah desa terhadap pelaksanaan otonomi desa.

Penelitian ini menggunakan penelitian kuantitatif asosiatif, dengan teknik pengumpulan data melalui kuisioner dan dokumentasi. Pengujian hipotesis pertama dan kedua menggunakan kendall tau- b dan konkoordinasi kendall W, sementara pengujian hipotesis ketiga menggunakan analisis regresi ordinal.

Berdasarkan hasil analisis secara kuantitatif dalam penelitian ini dapat disimpulkan bahwa kepemimpinan kepala desa berpengaruh positif secara signifikan terhadap pelaksanaan otonomi desa (koefisien korelasi 0,990 df 95 persen). Sedangkan kinerja pemerintah desa berpengaruh positif secara signifikan terhadap pelaksanaan otonomi desa (koefisien korelasi 0,501 df 95 persen). Sementara itu pengaruh kepemimpinan dan kinerja pemerintah desa yang kondusif secara bersamaan berpengaruh positif secara signifikan terhadap pelaksanaan otonomi desa (koefisien korelasi 0,996 df 95 persen).

Dapat disimpulkan penelitian ini yang memiliki pengaruh secara besar yaitu kepemimpinan kepala desa, oleh karena itu kepala desa di Kota Banjar harus mampu mengoordinasi pelaksanaan otonomi desa agar otonomi desa di Kota Banjar mencapai suatu tujuan yang telah ditetapkan.

Kata kunci : Kepemimpinan Kepala Desa, Kinerja Pemerintah Desa, Pelaksanaan Otonomi Desa.

SUMMARY

This study entitled "Effect of Leadership Village Head and Village Government Performance Against Autonomy Village in Banjar City".

The purpose of this research is to know is there any significant relationship between the leadership of the village head and village government performance against implements selected village autonomy.

This study uses a quantitative research associative, with data collection through questionnaires and documentation. The first and second hypothesis testing using kendall kendall konkoordinasi tau- b and W, while the third hypothesis testing using ordinal regression analysis.

Based on the results of quantitative analysis in this study can be concluded that the leadership of the village head significantly positive effect on the implementation of village autonomy (correlation coefficient 0.990 df 95 percent). While the performance of village government significantly positive effect on the implementation of village autonomy (correlation coefficient 0.501 df 95 percent). While the influence of leadership and government performance villages conducive simultaneously positive and significant effect on the implementation of village autonomy (correlation coefficient 0.996 df 95 percent).

This research can be concluded that have great influence that the leadership of the village head, therefore the head of the village in Banjar should be able to coordinate the implementation of the autonomy of the village so that autonomous village in Banjar achieve a goal that has been set.

Keywords : Leadership Village Head, Village Government performance, Autonomy Village .
