**ABSTRAK**

Penelitian ini bertujuan untuk mengetahui bagaimana peran apoteker dalam pencegahan peredaran obat ilegal terhadap peningkatan pelayanan kefarmasian di Apotek Kota Cirebon dan untuk mengetahui kontribusi peran apoteker dalam pencegahan peredaran obat ilegal terhadap peningkatan pelayanan kefarmasian di Apotek Kota Cirebon.

Untuk mencapai tujuan tersebut, penelitian ini menggunakan metode pendekatan yuridis sosiologis dan spesifikasi penelitian deskriptif. Penelitian ini mengambil lokasi di apotek yang berada di wilayah Kota Cirebon. Jenis dan sumber data yang digunakan adalah data primer dan data sekunder dengan metode kuisioner,kepuustakaan, dan dokumentasi. Metode pengolahan data dengan *editing,coding*, dan tabulasi kemudian disajikan dengan bentuk tabel distribusi frekuensi,tabel silang, dan teksnarasi. Metode analisis data menggunakan metode distribusi frekuensi analisis dan tabel silang pengaruh serta konten analisis dan analisis perbandingan.

Hasil penelitian menunjukkan bahwa peran apoteker terhadap pencegahan peredaran obat ilegal di Kota Cirebon adalah tinggi. Hal ini dibuktikan dengan hasil penelitian terhadap 5(lima) indikator yang meliputi tingginya tindakan mengawasi nomor ijin edar obat, dan tindakan mengawasi terhadap obat yang terdaftar dalam Badan POM, kemudian tinggi pula tindakan dalam memeriksa label obat, tindakan dalam memberikan penjelasan terhadap pasien tentang risiko atas penggunaan obat ilegal, dan tindakan pemeriksaan terhadap obat yang beredar. Peran apoteker dalam pencegahan peredaran obat ilegal cenderung memberikan kontribusi secara positif terhadap peningkatan pelayanan kefarmasian di apotek Kota Cirebon, artinya semakin tinggi peran apoteker dalam pencegahan peredaran obat ilegal, maka cenderung semakin meningkat pelayanan kefarmasian. Hal ini dapat dibuktikan dengan hasil penelitian terhadap 4(empat) indikator yang dapat dikatakan baik meliputi pelayanan kefarmasian dalam pengadaan sediaan farmasi, pelayanan kefarmasian dalam produksi sediaan farmasi,pelayanan kefarmasian dalam distribusi sediaan farmasi, pelayanan kefarmasian dalam pelayanan sediaan farmasi.

**ABSTRACT**

This study is intend to determine the role of pharmacists in preventing the circulation of illegal drugs to improve pharmaceutical services at the pharmacy in Cirebon and the contribution of pharmacists roles in preventing the circulation of illegal drugs to improving pharmacy service in Cirebon pharmacies.

In order toattain that purpose , this study uses a sociological juridical approach and descriptive research specifications. This research took place in a pharmacy located in Cirebon. the types and sources of data used in this studywere primary data and secondary data with questionnaires , literature and documentation. Data processing methods by editing , coding , and tabulation, then presented in the form of frequency distribution tables , cross tables , and narrative text. Data analysis method used analysis frequency distribution method and cross table of influence as well as content analysis and comparison analysis.

The results showed that the role of pharmacist in preventing illegal drug circulation in Cirebon that they have an important role. This proved by the result of research on five indicators which included the high level of action in controlling the distribution permit number , the action of controlling drugs registered in the POM , then the high number of actions in checking drug labels, actions in providing explanations to patients about the risk of using illegal drugs , and actions of examining drugs in circulation. The role of the worker in preventing the circulation of illegal drugs tends to contribute positively to the improvement of pharmaceutical service in Cirebon pharmacies , meaning that the higher the role of pharmacists in preventing the circulation of illegal drugs , the more pharmaceutical service tend to be. This proved by the results of research on four indicators that can be said to be good , including pharmaceutical service in the procurement of pharmaceutical preparations , pharmaceutical services in the production of pharmaceutical preparations , pharmaceutical services in the distribution of pharmaceutical preparations , pharmaceutical services in pharmaceutical preparations services.
