ABSTRAK

Penelitian ini bertujuan untuk mengetahui efektivitas hukum standar prosedur operasional kebidanan dalam pelayanan kesehatan ibu dan anak di Puskesmas Serayu Larangan Kecamatan Mrebet dan pengaruh faktor komunikasi, fasilitas dan kerjasama terhadap efektivitas hukum standar prosedur operasional kebidanan dalam pelayanan kesehatan ibu dan anak di Puskesmas Serayu Larangan Kabupaten Purbalingga.

Penelitian ini menggunakan metode penelitian kuantitatif dan pendekatan yuridis sosiologis. Penelitian ini mengambil lokasi di Puskesmas Serayu Larangan Kecamatan Mrebet Kabupaten Purbalingga dengan responden 30 bidan dari 35 bidan yang ada di Puskesmas Serayu Larangan. Pengambilan sampel penelitian menggunakan *simple random sampling*. Jenis dan sumber data meliputi data primer dan sekunder yang diperoleh dengan metode angket/kuesioner, dokumenter, dan kepustakaan. Data yang terkumpul diolah dengan menggunakan metode *coding*, *editing*, dan *tabulasi*. Analisis data kuantitatif menggunakan distribusi frekuensi analisis dan tabel silang analisis, analisis data kualitatif menggunakan metode analisis isi dan analisis perbandingan.

Hasil penelitian menunjukkan bahwa tingkat efektivitas hukum standar prosedur operasional kebidanan dalam pelayanan kesehatan ibu dan anak di Puskesmas Serayu Larangan Kecamatan Mrebet Kabupaten Purbalingga adalah efektif. Hal ini dibuktikan dengan hasil penelitian terhadap empat indikator yaitu efektifnya pelayanan pemeriksaan ibu hamil, efektifnya pertolongan persalinan, efektifnya pemeriksaan ibu nifas, dan efektifnya pemeriksaan fisik bayi baru lahir oleh bidan. Pengaruh faktor komunikasi, fasilitas dan kerja sama terhadap pelayanan kesehatan ibu dan anak di Puskesmas Serayu Larangan Kecamatan Mrebet Kabupaten Purbalingga meliputi faktor komunikasi sebagai faktor personal, fasilitas dan kerja sama sebagai faktor sosial.

ABSTRACT

This study aims to determine the effectiveness of the standard legal operational procedures of midwifery in maternal and child health services at the Serayu Larangan Public Health Center, Mrebet District and the influence of communication, facilities and cooperation factors on the effectiveness of the legal standard operating procedures of midwifery in maternal and child health services at Serayu Larangan Public Health Center, Purbalingga Regency.

This research uses quantitative research methods and a sociological juridical approach. This research took place in Serayu Larangan Public Health Center, Mrebet District, Purbalingga Regency, with 30 midwives from 35 midwives in Serayu Larangan Health Center as respondents. The research sample was taken using simple random sampling. Types and sources of data include primary and secondary data obtained by the questionnaire method, documentary, and literature. The collected data were processed using coding, editing, and tabulation methods. Quantitative data analysis used analysis frequency distribution and analysis cross table, qualitative data analysis used content analysis and comparative analysis methods.

The results showed that the level of legal effectiveness of the standard operational procedures of midwifery in maternal and child health services at Serayu Larangan Public Health Center, Mrebet District, Purbalingga Regency was effective. This is evidenced by the results of research on four indicators, namely the effectiveness of services for examining pregnant women, the effectiveness of delivery assistance, the effectiveness of postpartum examinations, and the effectiveness of physical examinations for newborns by midwives. The influence of communication factors, facilities and cooperation on maternal and child health services at Serayu Larangan Public Health Center, Mrebet District, Purbalingga Regency includes communication factors as personal factors, facilities and cooperation as social factors.
